*cereals containing gluten, egg, milk & nuts*

## UNIT OF ALCOHOL

The alcohol unit measures the amount of pure alcohol contained in a given volume of alcoholic beverage.

***1 unit of alcohol = 10g of pure alcohol = 1 glass of standard alcohol***

In France, the benchmark for alcohol consumption in adults, regardless of gender, has been established at 10 standard glasses of alcohol per week, maximum, without exceeding 2 standard glasses per day.
